

Jingoian for President & RESET America

Fighting to Protect our Freedom and our Future

Our nation is faced with a multitude of converging catastrophes. The 2-party system has caused these problems and there is no chance that they will be fixed by the Democrats or Republicans who profit by the status quo. What's more, valid solutions are running out of time. Our only viable course-of-action is to vote for an independent for President who has the courage and integrity to put the interest of others above his or her own.

RESET America and Michael Jingoian Announce Plan to Change our Nation's Trajectory

Michael Jingoian
Founder, RESET America
Founder & CEO, AngelVision

In a business, it's quite common to hire a CEO from outside an organization: to bring in new ideas, remove office politics, and to get the company back on track. This is what America needs:

- ★ Someone who is not entrenched in our corrupt political system.
- ★ Someone who is not indebted to lobbyists and special interest groups.
- ★ Someone who knows how to enroll people into a shared vision of what's possible.
- ★ Someone who is not "For Sale."

Michael Jingoian is a recognized business leader in building complex organizations and teams, enabling sustainable business practices and assisting small business. He is the founder of AngelVision Technologies, Inc.; the fastest growing Interactive Media firm in the US. Recognized as the 120th fastest growing private company in the US by Inc. Magazine, they have won over 35 regional and national awards for innovation, management and advertising.

Michael is a pioneer in the field of holistic management which is responsible for AngelVision's unprecedented growth and success. Recently, AngelVision was voted one of "15 Best Small Companies" to work for in Oregon and recognized as providing the 3rd Best Benefits Package in the state.

In 2002, Michael founded RESET America. Their aim is to save our Freedoms and Liberty and take action before valid solutions to our serious problems are lost forever. RESET America is dedicated to replacing our destructive 2 party system with Independent and 3rd party candidates for public office. In order to help deliver his message, he was encouraged to run for President of the United States as a Libertarian—the party that he has embraced for the past 27 years.

Jingoian's campaign is exceeding all expectations. The Portland Business Journal says,

"Jingoian is no ordinary politico. He's more Don Quixote with an entrepreneurial streak."

As Ben Franklin said...

"Change can only come from 1 direction... outside."

This movement will show the American people that there ARE solutions to our nation's problems and that we are EMPOWERED to choose how we wish to be governed.

Don't let a small number of narrow-minded people, for their own self-interest and greed, permanently ruin our country and our planet.
