Do I Really Expect to be President?

- ★ [Can I Seriously Get Elected?](#)
- ★ [Why we Must Act Now](#)

January 18, 2008

Viability (Do I really expect to be President).doc

This is NOT Politics and Usual

Our nation is faced with a multitude of converging threats. Our very Freedom and Liberties are in jeopardy. You can view a list of our greatest challenges [here](#). This chart is to be the focal point behind a new book titled, "Resetting America by Destroying our 2-party System."

The 2-party system has caused these problems and there is no chance that they will be fixed by the Democrats and Republicans who benefit by the status quo. Luckily, there are a few solutions left to solve our greatest challenges. Some of these would cost little or nothing at all to implement. Unfortunately, these solutions are running out of time. In the meantime, all these problems are getting worse and viable solutions are disappearing. Our elected "leaders" are doing NOTHING but preparing for the next election. The only word to describe the actions of those in government is "Treasonous."

If we do not enact these opportunities now, then they will expire. We are passing such a mess on to our kids as is it, let's at least TRY to take back our government... our basic freedoms and way of life are at stake. Please [Get Involved](#) with like-minded people.

Our 5 Year Plan

Do I really expect to be elected President?... Of course not.

However, we believe that we can win 5-7% of the popular vote and win the delegates from the State of Oregon (and perhaps Alaska as well). The **Jingoian for President Campaign with the RESET America Plan** is not your typical 3rd party campaign. You can view and print our **5 Year Plan** [here](#).

Why this is Viable?

There are many factors that have converged to make our success seem possible.

First, people are MAD. They are **waiting** for message. In my opinion, there is more discontent with government now than in any other time in history, except perhaps during the first revolution. Despite what you hear from politicians and the media, families are **panicking** and people are **furious**. They're speaking out by writing blogs and editorials, calling into talk radio programs, demonstrating and organizing [meet-up](#) groups.

People are looking for a credible path to change. RESET America offers a specific plan to execute a lawful and peaceful revolution before valid solutions disappear forever. Consider some of the facts:

- ★ 70% of the population lives paycheck to paycheck.
- ★ There are no savings and young people do not expect to collect Social Security
- ★ Credit card bills and home equity loans are out of control.
- ★ In 10 years, 80% will retire in poverty.
- ★ Costs are soaring for energy, healthcare, food and other essential commodities
- ★ Disposable income is becoming a thing of the past

- ★ Anxiety, depression and the use of drugs (legal or not) to deal with these issues are rising at an alarming rate.

It's not that people don't care about government. It's because we've been **convinced** there's no alternative. We vote for 'Democrats' and 'Republicans' because **we think we are not empowered**. I call this Story Pollution and I talk about it in this blog. (This is also the Introduction to my book on Holistic Management).

Acknowledging the Real Problem

The real problem is NOT the politicians, the media, or even the lobbyists. The **real problem** is that people think that **they** care but that no one else does. And that is just not true. We believe that once we release this message to the public in March, most Americans will withdraw their support for the Democrats and Republicans and support a movement for **real change**.

American's Already Know that the 2-party System is to Blame

The failure of our 2-party system is of no surprise to most Americans. We realize that that the 2-party system is the reason why our elected "leaders" are **afraid** and **reluctant** to address our greatest challenges. RESET America is about educating people about three realities:

1. There are viable solutions that exist in dealing with many of our challenges so long as we act now.
2. Politicians do not have the ability or desire to change the status quo.
3. We the American People are indeed empowered to make change and save our republic from the effects of our destructive 2-party system.

Solid Campaign Infrastructure

We have built a solid organization including a fantastic staff and group of volunteers, office, Cision PR database, Telosa campaign software, apparel, signage, literature, position statements, and an extensive photo and media library. We have a highly engaging website that rivals the leading Democrat and Republican Candidates.

We have unmatched experience in video and multimedia production. Our campaign utilizes the most advanced video production and editing tools available. We can respond live from our office via the Internet to hot-button issues in the media. We plan to use this knowledge to produce powerful messaging that will inspire people to take action. We developing all this media now.

This Message will Spread by Itself

This message will spread by itself. (Well, I hope so anyway. I've sacrificed too much of my life on my belief that people will do the right thing.)

I believe that people want change – but don't have any options. Our campaign is truly the only viable alternative amongst the Democrat and Republican candidates. We plan to launch this message in March. When people see it, we are hoping that they will be inspired to pass it on to their friends. By not relying on television advertising, we don't require much financing to succeed in our goals. (However, if you ARE in a position to contribute, then I kindly ask for your consideration in [donating](#) to our movement and campaign).

This movement will work because it is something that people know is important. People are not as lazy as the politicians and media make them out to be. People are extraordinary and once they hear this message and realize that they are empowered, then this movement will take over by itself.

Uniting All Independents around our Common Goals First

This message transcends politics. It transcends Liberals, Conservatives, Democrats, and Republicans; it appeals to middle-of-the-road Americans who want to see more individual liberty and personal responsibility in government and share in a true democracy.

We plan to enroll ALL Americans who feel betrayed by the Democrats and Republicans. Although I am a Libertarian and believe in Libertarian policies, our specific agenda for 2008 appeals to all **Independents**, not just Libertarians. By focusing on our **shared goals** first (including increasing Ballot Access), we can use our momentum to attract legitimate Libertarian candidates for the House and Senate for 2010 and 2012.

We need to take one step at a time. This is why RESET America is a [5 Year Plan](#).

The threats facing our Nation are great. The solutions are real. We MUST unite all enraged citizens around our common goals first... then with influence in Congress, we can pursue the rest of the items in our agenda.

Exceptional Advertising Experiences and Resources

We know a *little something* about advertising. In 2001, I founded AngelVision. AngelVision is now the fastest growing Interactive Media Firm in the nation. Each year since it was established, AngelVision has increased revenues 170 to 350 percent making it the 120th Fastest Growing Company in the United States as ranked by [Inc. Magazine](#). **<Sean, link to PDF>**. AngelVision is recognized as one of the nation's best run companies and has been honored with over 35 regional and national awards since 2006, including:

- 2006 – InnoTech Innovation of the Year Award*
- 2006 – The American Marketing Association MAX Award (1st Place for Excellence in Marketing)*
- 2006 – Two Telly Awards for Interactive Marketing*
- 2007 – Repeat Finalist for the American Marketing Association MAX Award*
- 2007 – Three Internet Advertising Awards*
- 2007 – Two Summit International Marketing Awards*
- 2007 – American Business Stevie Award for Best Interactive Media Company for Business & Government*
- 2007 – Five Blingy Awards for Excellence in Marketing*
- 2007 – Five Telly Awards for Best Internet / Online Commercial*

AngelVision was voted the “15th Best Small Company to Work for in Oregon,” and the company with the 3rd Best Benefits Package in the state: all this in an industry where most of AngelVision's competitors send their production overseas. In 2006, I was the recipient of the Pinnacle Award for Outstanding Mentoring of Fellow Professionals.

Extensive Media and PR Activities (30 Unique Programs)

This will not be a traditionally run campaign. We have planned an extensive media and PR campaign. Throughout the year, we plan to roll-out as many as 30 unique programs to spread our message. (If you are a potential large donor and want to see what we have up our selves, then we'd be happy to share with you details on how your contribution would be spent).

RESET America is a new and exciting message. Since we know how to develop effective messaging and how to spread our messages through the Internet with state of the art technology, we'll grab the public's interest and bring them into the RESET America fold.

Early Campaign Process

The 2-parties and their candidates have never started campaigning so early before. This will change the dynamics of this election. By the summer of 2008, the networks will be looking for news and people's interest in these candidates will have peaked. People will be **bored** and the networks will be **looking** for new stories to cover. This sentiment has also been confirmed by others in politics and leaves space for a (fresh, yet a bit unorthodox) new candidate to gain national recognition.

Attacks against Jingoian have Backfired

I have been vehemently attacked on the Internet by a lobbyist from the defense industry and others attached to the status quo. This has bolstered my image as a champion against accepting the status quo.

The Numbers are Achievable

If we get 20 percent of new voters and 25 percent of those who vote Democratic and Republican, then we can actually WIN this election. These numbers are very realistic to at least achieve our basic goal of capturing 5-7% of the popular vote.

This Needs to Happen Now

Finally, this will work because it **MUST** work. Every day, we are losing our basic freedoms and democracy. **We are jeopardizing the way of life for our generation and countless others if we choose to do nothing.**

Please Help us Spread this Message

This movement is for YOU and about YOU. The Democrats and Republicans are terrified of competition. Meanwhile, **your future** is in peril. The 2 parties have put America on a dangerous trajectory as the result of making fundraising and campaigning the priority over sound public policy.

But, despite what the media and politicians want you to believe, **you are empowered**. The difference between a future of FREEDOM and a future of DESPAIR is up to YOU.

There are many ways that you can help us spread our message of Freedom and Liberty. Financial [contributions](#) are certainly needed; however, your time is even more valuable. The most important contribution you can make RIGHT NOW is to tell others about RESET America. Call, email, write, or yell as loud as you can in a westerly direction (unless you are on the west coast, in which case, yell east).

PLEASE!! Talk about us in:

- ★ Blogs
- ★ Radio Talk Shows
- ★ Letters to the Editor of any Publication
- ★ Magazine and Newspaper Editorials
- ★ Tell your Friends in the Media about RESET America

There is nothing more important to us as individuals or as a nation than protecting Freedoms and Liberties.

There WILL be a revolution in this country, but if we act now, we can make it a peaceful one. - *Michael Jingoian*
