AngelVision Holistic Management Style Credited with 1444% Growth and INC 500 Ranking

(Portland, OR) AngelVision Technologies achieved 1440% growth in the last 3 years and has been honored with 38 regional and national awards since 2006, including being ranked 120th in INC 500's "Fastest Growing Private Companies."

Founder and CEO Michael P. Jingoian applies a 'holistic management philosophy. Jingoian states: "We started AngelVision on very different principles than any previous company. We don't consider how we 'should' do things, but rather, what is the 'best' way to get things done. I also wanted to create a company whose growth would be directly tied to the growth of our employees."

This is reflected in the number of awards AngelVision has won in the past two years. Since 2006, AngelVision has been honored with 35 regional and national awards for management, innovation and marketing, including:

- Winner: 2007 American Business Stevie Award for Best Interactive Media Company for Business & Government
- Winner: 2007 Five Telly Awards for Best Internet / Online Commercial
- Winner: 2007 Five Blingy Awards for Excellence in Marketing
- Winner: 2007 Two Summit International Marketing Awards
- Winner: 2007 Three Internet Advertising Awards
- Winner: 2006 InnoTech Innovation of the Year Award
- Winner: 2006 The American Marketing Assoc. MAX Award (1st Place for Excellence in Marketing)
- Winner: 2006 Two Telly Awards for Interactive Marketing

Under Jingoian's unique brand of leadership, AngelVision offers an enriching work experience with many opportunities for professional growth. AngelVision was rated as the "15th Best Company to Work for in Oregon" and the company with the 2nd best benefits package in the state" by Oregon Business Magazine.

For his work and dedication in helping entrepreneurs and small business owners, Jingoian was the recipient of the 2006 Pinnacle Award for Outstanding Mentoring of Fellow Professionals. Jingoian even sponsored an AngelVision employee's directorial debut at a playhouse in downtown Portland.

Jingoian believes in finding private, non-Government funded solutions to our nation's problems. AngelVision is a perfect example. Not only do they produce a communications tool that has won awards for ROI, but it significantly reduces paper waste, thereby reducing deforestation, the burning of fossil fuels, and global warming. Though virtually all their competitors send their work overseas, not only do they send no work overseas, but they offer the 3rd best benefits package in the State of Oregon. As Jingoian says, "If you have Leadership, you don't need excuses."

Michael Jingoian

- CEO, AngelVision
 - Leading non-2 party candidate for President of the United States
- www.ResetAmerica.com

Jingoian believes that all individuals can be a positive force for economic, environmental and social change. He even believes political change is possible. Jingoian is a Libertarian Candidate for President of the United States, and founder of RESET America: a plan to save our nation and planet before valid solutions are no longer possible. As quoted in the Portland Business Journal, "Jingoian is no ordinary politico. He's more Don Quixote with an entrepreneurial streak."

Some political insiders say that this movement has the potential to catapult all 3rd parties, including the Greens, Working Families, Reform and yes, of course, the Libertarians onto the public stage.

AngelVision Technologies produces Impact Movies which are a sales and marketing tool designed to help companies put their most compelling message in front of their prospective clients. They can be used over 20 ways and translated into 72 languages. You can learn more about AngelVision and view a sample Impact Movie at www.ImpactMovies.com.
