# RESET AMERICA

**Reset America is a simple plan to replace our corrupt 2-party system.**

Nothing is more important than who we elect to run our government. We are fighting to give you the freedom to vote for who you want and not just the two candidates chosen by our corrupt 2 parties.

Our political situation is a shitshow... and it's even getting worse as we continue to re-elect the very same people who created this mess. Our only solution is to convince Americans to only vote for candidates who support three specific changes to our election laws. They are Term Limits, Ranked Voting and Equal Rules for 3rd Parties to give independent candidates the same chances to be elected.

Our plan is realistic, easy and doesn't cost a penny. It doesn't require help from Congress, and it can be achieved in just 2-3 elections. We must stop trying to hold our "leaders" accountable and take matters into our own hands, literally. What have you got to lose?

### INTRO (CENTER) TEXT

Nothing is more important than who we elect to run our government. We are fighting to give you the freedom to vote for who you want and not just the two candidates chosen by our corrupt 2 parties.

Our political situation is a shitshow... and it's even getting worse as we continue to re-elect the very same people who created this mess. Our only solution is to convince Americans to only vote for candidates who support three specific changes to our election laws. They are Term Limits, Ranked Voting and Equal Rules for 3rd Parties to give independent candidates the same chance to be elected.

Our plan is realistic, easy and doesn't cost a thing. It doesn't require help from Congress, and it can be achieved in just 2-3 elections. We must stop trying to hold our "leaders" accountable and take matters into our own hands, *literally*. What have you got to lose?

### PREVIOUS INTRO

Reset America is a simple plan to replace our corrupt 2-party system.

We are all angry and we all want change, but change is impossible if we continue to elect the same people and support the same parties that created the system that we have today - and who are profiting by it more and more. Our goal is to convince Americans to only vote for candidates who support these three policies. Fortunately, these are changes that you (the American People) already support, overwhelmingly, and on "both sides!" They are (1) Term Limits to end career politicians, (2) Rank Voting to stop the spoiler effect, and (3) Equal Rules for 3rd Parties to give independent candidates the same chances to be elected. This can't be made any easier.

These three changes won't solve all our problems overnight, but they are a necessary first step for any meaningful change to happen and avoid a violent revolution.

### 6 MIDDLE BUTTONS

#### Take our Quiz

- Do you still believe that there's a difference between the two parties? Then take our quiz... and then tell us!

#### The book, Mistaken Beliefs

- Learn why everything you know about government is wrong.
- Read 1/2 of the book for free.

#### Start a New 3rd Party

- We have a unique, once-in-a-lifetime chance to make this happen. Don't let this opportunity slip away.

# 3

## Donate Today

- Please give what you can to spread this critical message. Make a one-time donation or an ongoing contribution.

## Things we can do right Now

- There are many things that we can do right now to change the system. Most require little effort and no money.

## Get Involved & Comment

- Join our Team
- View Current Projects
- Buy Mistaken Beliefs
- Tell us what you think

## 3 BOTTOM BUTTONS - MAKE A DIFFERENCE

### Documentary

Help us produce a full-length documentary based on our 2007 video that won 4 awards for best short political video. People need to know the truth about how the two parties rig the system to stay in power, why they are really the same, and why re-election controls every decision made in Washington.

### Online Programs

Learn about our plans for satirical and entertaining videos, our rapid response network, recruitment, training and affiliate program, including a comedy, game show and news program for which Barely Political and the Comedy Channel have already produced a few pilots.

### Join our Team

We have exciting projects ready to launch, but we need your help. We need social media experts, podcasters, bloggers, YouTubers, and motivated patriots with experience managing fundraising campaigns, and whatever else that our wicked minds can devise to break the status quo.

**Peace and gratitude to all those who wish to decide how we want to be governed.**

If you agree with our message, then join us.  
Drop us an email describing your unique superpower.

Please like, share and be a part of our Nation's 2nd Revolution.

# RESET AMERICA

## A Simple Plan to take back our Government

There will be a revolution. It will be a peaceful one if we act now.

### Friends and Neighbors,

We can no longer sit on the sidelines and watch our country and way of life collapse in the hands of self-serving 'leaders' whose only concern is getting re-elected and staying in power.

- We have lost all confidence in our government.
- We have lost our position as the most powerful nation in the world.
- Our health and quality of life are in peril.
- The future of democracy around the world is in jeopardy.

Think I'm being overly dramatic? No. Trust me, I wouldn't waste my time doing this if I didn't know that we are headed for disaster, worse than we think, mostly because of the compounding effects of these crisis's. But surprising to most, there are practical solutions to our worst problems that we can do right now. Why don't we see these discussed and debated? Simple... they do not raise money and win re-elections.

The following text is from Chapter 80 in our book, Mistaken Beliefs.

### Our Mission

What can we do to fix this mess? It's not enough to get the American People to understand the truth. The change that we desperately need requires us to act. Reset America is a simple plan for the American People to take back government from career politicians and the 2-parties. We have 3 immediate goals:

1. Our first goal is to convince all Americans to only vote for candidates who support these 3 specific changes to our election process:

<u>Policy Change</u>	<u>Purpose</u>
1. Term Limits	This will replace career politicians with people willing to put your interests above their own.
2. Ranked Voting	This will avoid the Spoiler Effect so that you can vote for whoever you want and not risk electing someone who you hate even more.
3. Equal Rules & Laws	This will end the 2-party monopoly to give independents and 3 <sup>rd</sup> party candidates a fair chance to be elected.

We're not saying that once we adopt these three policies that all our problems will go away overnight. What we are saying is that if we don't make these 3 changes first, then we will have no chance of ever altering this unsustainable trajectory that our nation is headed.

2. Our second goal is to persuade candidates to endorse our list of Reset America principles. If a candidate swears to support these conditions, then they may proudly display the Reset America logo in their promotional materials.
3. If a politician pledges their support for these principles, and they do not try to make them happen in their first year in office, then we simply vote for new candidates who will. We keep doing this until we have a Congress that is working for the people and not themselves.

This will motivate our "leaders" to do the right thing if they wish to be re-elected. I don't know how we can make this any easier or convenient to cause the changes that we need – and we know that we need.

## How Polarized are we really?

This should be an easy sell since so many of you already support these changes.

- 80% of us want Term Limits.
- 80% of us think positively about Ranked Voting
- 68% of us want 3rd parties. [Sources of data \(popup\)](#)

I may not be the sharpest knife in the drawer but please tell me how...

- 80% of people can strongly want something and we call that a society that's "polarized."
- And 80% of you have a positive view of Ranked Voting. Please tell me how 80% of people feeling strongly about something means that we're polarized? Sorry, I just asked that.
- And 68% of us want 3rd parties. That's not being polarized either.
- And, by the way, 93% of us dislike government! How the fuck is that being polarized?

Maybe it's because our "leaders" want us to be polarized. They want us to point fingers at each other instead of at them. They're not "leaders" at all. They act more like children (and our children are acting more like leaders.)

- We are all angry.
- We all want change.
- We already know that change needs to come from outside the system.
- We already know that we need 3rd parties to add competition to the Democratic and Republican Parties.

(We talk about the subject of polarization more since this is number one in our list of the [Top 10 Mistaken Beliefs](#).)

**We must work together and put aside distraction issues that the 2-parties use to polarize us to prevent the changes that we know we must make.**

## The Issues don't Matter.

It doesn't matter what we want to see changed in Washington. The only chance that you will ever have to achieve your particular goals is to join together towards our common goal of creating a real democratic election process. It's a complete waste of time, money and energy to debate policy on any issue until we hold our leaders accountable, and this starts by changing how they are incentivized.

The Reset America plan does not embrace any specific issue (other than resetting our election process of course.) We purposely don't take sides or even care about how you feel about any partisan issue. You can be Democrat, Republican, liberation, green, or even fluorescent. Our only goal is to unify all people around our common desire to take back government from career politicians and the 2 parties.

# 6

## We must Fix the Root Problem Together.

Whatever is your particular concern, no changes are possible because our system was built by the same people who are still profiting by it today.

Let's use global warming as an example. There has never been a greater threat to our species and planet than global warming. Fortunately, we know what we need to do to address this crisis. But sadly, this will never happen while nearly all of Congress has some level of interest in the success of energy companies.

Take for example Senator Joe Manchin (Democrat). Manchin chairs the Senate Committee on Energy and Natural Resources. It is the top position in ensuring we pursue more climate-friendly policies - and he is adamantly against addressing the effects of global warming. Why? Do you think that it has anything to do with the fact that he owns a coal company, Eversource, and last year alone, he was paid \$491,949? Or that he receives the most funding of any senator from the oil and gas industry?

He's not alone. All members of Congress are allowed to use inside information gained from doing their job for their personal benefit. Even as chairman of his committee, Manchin can trade stocks based on the decisions that his committee makes and how he votes. But he's not the only legislator who is guilty of insider trading and bribery. The majority of Congress engages in practices to make money for themselves, while jeopardizing the future of our children and nation. Worst of all, this is all legal.

## Is there any more obvious conflict of interest?

Regardless of which "side" you're on, please tell me that you believe this is wrong. If you're desperate to latch onto a conspiracy theory, latch onto this one (only it's not a theory!)

So, as you can see, we are not going to address global warming while Congress is owned by the energy industry. Here are other issues that need to be addressed and why this can't happen under our current system.

### Your Cause

### Why it won't happen

- You can spend your life trying to End Wars... but you don't stand a chance when the defense industry gives billions to Congress.
- You can fight against Global Warming... but you don't stand a chance when Congress is in the pockets of energy companies.
- You can get People Healthy... but you don't stand a chance when big pharma, health care and insurance are some of our nation's biggest lobbies.
- You can fight for Election Reform... but you don't stand a chance when both parties are making it harder and harder for 3rd parties and independent candidates to compete.
- You fight against Unlawful Convictions... but you don't stand a chance when everyone down the line, from law enforcement to prosecutors, judges, prison officials are incentivized to keep more people trapped in the system.
- You can be an activist for Buying Local... but you don't stand a chance when Congress is controlled by corporations.

# 7

- You can try to expose Government Waste... but you don't stand a chance when the entire establishment profits from excess spending, expanding control and the exchange of favors for jobs.
- You can fight for Campaign Finance Reform... but you don't stand a chance when the entire system is about re-election and fundraising.
- You can encourage Personal Savings... but you don't stand a chance when our government gives tax breaks for adding more debt and taxes income from savings.
- You can fight for Social Justice... but you don't stand a chance when Congress doesn't understand the needs of the disadvantaged since most of its members are old, white, rich, male, career politicians.
- You can fight for Term Limits... but you don't stand a chance when Congress is able to pass laws regulations that directly apply to themselves. Whatever happened to checks and balances, or conflict of interest?

Get the point? These are all worthy causes – as well as dozens of others - and we commend you for being involved. But regardless of what you want, nothing will change while career politicians fight to protect the status quo and expand their powers. This is why it is **vital** that **all** people, regardless of the issues, unite over our common goal of electing legislators who are not for sale.

## **There are Never just 2 sides to an Issue**

What's more, there are never only two solutions to a problem. In fact, there are practical solutions that cost nothing to make happen, but these are not even considered because they don't benefit those in power. In contrast, the only solutions that **are** considered are those that help Congress win re-elections which involve returns for favors and putting money in their pockets.

## **The Book: Mistaken Beliefs**

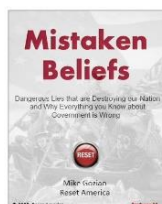

Can this change happen? Yes, but first, we need to understand the reasons that are preventing it. These are the hidden causes that stop us from creating the very change that we want. These obstacles are the result of 'mistaken beliefs' that we embrace as a society. These beliefs are terribly wrong, and they effect how we think and act. In the book, we reveal the real problem in government, and it will probably surprise you.

**Literally any solution to any problem starts by having the courage and common sense to vote for candidates outside the 2 parties and who are not for sale.**

[We fought a revolution to take control of our government from the British. It's time for us to take back control of our government from the 2 parties.](#)

## MISTAKEN BELIEFS

Dangerous lies that are destroying our nation and why everything you know about government is wrong.  
by Mike Gozian

### There's No Charge for Half the Book

It is critical that we get this message out the public as fast as possible. So, I'm making it very easy to get this information. There are 3 ways to read this book.

1. I posted the first 3 chapters Free of charge. (This includes the Notes located at the end of the book.) This document is provided to you at no cost. There are no forms, just click [here](#).

Also, all the sources of the data that we use in our materials are listed in the Notes Section at the end of the book. This includes the website, book, and videos [.BUTTON](#)

2. I am also giving over half of the book out for free. Below is a very detailed table of contents is below. The chapters that are highlighted are included with this abridged edition.

- To receive this version, you will need to complete this [short form](#). When you do, a PDF file will be emailed to you.
  - These free editions may not be available past New Year's Day.
3. You can order the entire book now. The cost is \$20 through [GoFundMe](#) and [Patreon](#).
    - For the time being, I will include the audio version, also at no cost (when it is produced.)
    - You will also receive buckets of Karma sent in your direction. (Not the cheap stuff.)
    - Be aware that some of the text is still in draft form. See "[My Apologies](#)." Of course, you will receive the final book when it is published.

### Designed for Read on a Phone

The book was designed to make it easy to read on a phone. The text is in two columns so that you can scroll down up and down, instead of sideways. Of course, you can also print the entire book or selected chapters.

## ABOUT THE BOOK

### We've had Enough. It is time we Act.

People are furious. We desperately want change and, as it turns out, we know the problems, and we even know how to fix them.

The biggest problem in our government are career politicians and our failed 2-party system... so it's not surprising that every study shows that people from 'both sides' overwhelmingly want to add competition to the Democrat and Republican Parties.

### We know the problems and we know the solutions.

- 80% of voters want term limits for Congress, however, we re-elect the same politicians 95% of the time. [Sources of Data: Popup](#)
- In the 2016 election, the two major candidates had the lowest approval ratings in history (Clinton with 41% and Trump with 33%), but less than 5% of people voted for a different candidate.
- 68% of people want active 3rd parties, yet we cling to the mistaken belief that says, "voting for a 3rd party is a wasted vote" – as if voting for a non-Democrat or Republican will cause parts of your body to start falling off!

### Our Voting Decisions are Illogical.

So, if we know the problems and we know the solutions, then why don't we do what we know we must do? Why do we vote opposite to what we say that we need to do? For example, if we already have the ability to vote out career politicians, then why do we need to pass term limits?

How is this any different from saying, "We can't have dinner tonight because Congress hasn't passed a law saying that we can eat." We can have dinner without a law that allows us to eat, just like we can vote out career politicians simply by not re-electing them.

We can replace them with people who are willing to address our most pressing issues in an honest and intelligent way... people who are not beholdng to their party or paid for by special interests.

### Change only comes from Outside.

All revolutionary change comes from outside the system. There is no other way. This is especially relevant in politics because the people in power can make their own laws to prevent competition. How else can you have a 95% re-election rate with a 7% approval rating?

Politicians and the rich are always saying how competition benefits everyone. So, wouldn't it be good for our 2 parties as well? The changes that we need to make won't happen by re-electing the same people and supporting the same parties that created the disasters that we face today - and who are profiting by the system they created more and more.

Ben Franklin said that change can only come from one direction, from outside the system. Think about it. All revolutionary change comes from outside. Think about it.

- The iPhone didn't come from AT&T.
- Amazon didn't come from a department store.
- AirBNB didn't come from a hotel chain.
- YouTube didn't come from a TV network.
- Uber didn't come from a car rental agency.
- Netflix didn't come from a broadcaster.
- E\*TRADE didn't come from a brokerage company.
- Shit, even Pornhub didn't come from Playboy!

We can no longer rely on our 'leaders' to put our interests before their own. It's time we elected people who are willing to do what's right... and to do this requires us to make 3 changes our election laws.

## Top 10 Mistaken Beliefs

But before any change can happen, we must understand the real reasons that prevent it... and these reasons are not what we think they are. These misunderstandings stem from mistaken beliefs. These are beliefs that were once true - but now the complete opposite of these beliefs are true. The Top 10 Mistaken Beliefs are:

1. The American People are Polarized
2. People don't Care (and can't be trusted)
3. The Problems in Washington are caused by Politicians
4. We have Democratic Elections
5. There's a Difference between the 2 Parties
6. With Enough Money, we can Solve any Problem
7. Economic Data is Clear and Constant
8. America is a Rich Country
9. We make Logical Voting Decisions based on the Facts
10. Voting for a 3rd Party is a Wasted Vote

## Topics covered in the book.

The book reveals the truth behind these myths and how the 2 parties exploit these lies for their benefit. We show how these mistruths affect every aspect of our lives from business to government, foreign policy, the economy, the environment and how they prevent the real change that we all know and agree must happen.

1. How can congress have such a high re-election rate with such a miserable approval rating? In the book, we expose the tricks that the Democratic and Republican parties use to stay in power and how the rules for 3rd parties are vastly different from the rules that the 2 parties require for themselves.
2. The book proves that the changes that we must make won't happen by re-electing the same people and parties that got us to where we are today... and who profit by the system that they themselves created.
3. It will convince you to stop blaming Washington for our problems. Politicians are people – and people will always look out for themselves. So, who's really at fault... politicians who are merely being human and looking out for themselves or the people for giving limitless money and power to a small group and hoping that they don't manipulate the system over time to protect their way of life?
4. It shows why our voting decisions make no sense. It uncovers the unconscious psychological influences that determine how we think and why we vote opposite to what we say that we want. This includes herd behavior, brainwashing and cults, human behaviors and unconscious biases.
5. It explains why social media and disinformation campaigns are so successful in manipulating the opinions of people and why this is the cause of the extremism that we have today. It also defines terms that have been in the news recently, like gaslighting, cancel culture, tribalism, click-bait and how companies, the parties and the media play tricks to control what we think.
6. It exposes the criminal and unethical practices that the Democrat and Republican parties use to force out competition to maintain power and live in a different class.
7. It proves that the behaviors, actions, and most of the issues of the parties are exactly the 2 parties are same, and it explains why our election process is ranked the least democratic in the world. (Actually, we're tied for last... I was exaggerating for effect.)
8. It reveals many of the no-cost solutions to our worst problems that insiders don't want you to know about and why these solutions have no chance happening when getting re-elected is the only factor that drives every decision Washington.
9. It proves that opinions of voters from 'both sides' are not as 'polarized' as we are led to believe – especially when we look at our current situation from a 10,000 foot view.

10. The book explains which vote is truly the “wasted vote”... voting for the lessor of two evils or voting for the candidate who you would prefer to win the election. The truth is that a vote for a democrat or republican is the “wasted vote”. In fact, it’s **worse** than wasted because it supports a corrupt system that prevents the changes we need. If you plan to vote for a democrat or republican, then we are all better off if you don’t vote at all!
11. It serves as a resource for 3<sup>rd</sup> parties and independent candidates. It provides useful data, talking points, and a standard definition of terms and slogans for the 3<sup>rd</sup> party movement. Anyone is welcome to use this information (so long as you obtain permission and if the material is properly sourced).

### The Reset America Plan

Finally, it presents a simple and realistic plan to make all this happen in the next few elections. Our first, and immediate, goal is to convince all Americans to only vote for candidates who support these 3 policies... Term Limits, Rank Voting and Equal Rules for 3rd parties so that independent candidates can have an equal chance of be. It can’t be any easier.

### We reached a tipping point.

We’ve been living with these mistaken beliefs for too long. People are ready for change. Exposing the truth behind our corrupt election process and illogical voting decisions are the first steps in changing the dangerous trajectory that our nation is on.

**There are simple, no cost solutions to some of the worst problems, but time is running out. We must replace our current crop of politicians with fellow citizens who will pursue these opportunities before it’s too late.**

### Mike Gozian, Founder of Reset America

The book is written by me, Mike Gozian. (My legal name is Jingoian. I use a shorter name for the public to counter the effect of name bias. This is one of the many unconscious psychological influences which are covered in the book.)

In 2008, I ran for president as a 3<sup>rd</sup> party candidate. The purpose of my campaign was to spread this message to the public. We achieved some major wins, like killing the national ID card program and exposing insider trading. Sadly, the real ID card was later re-introduced in secret and passed... and the laws preventing insider training were reversed one week later by Pres. Obama. (Did you expect anything different?)

During the early stages of my campaign, I was the leading independent candidate even beating Hillary Clinton in some online polls. In the book, I reveal some of the dirty tricks that the parties used to disrupt my campaign... some of which still go on today.

**In 2007, Mike produced a short video that exposed some of the ways that the 2 parties use to rig the system to maintain their grip on power. The video received the Telly, W3, Marcom and AVA Awards for best short political video.**

You can read more about Mike here:

[Those who don’t attract a peaceful revolution today will be responsible for a violent one tomorrow.](#)

## QUIZ

### Let's Play 'Name the Guilty Party'

Still believe there's a difference between parties?  
Take our Quiz, then decide.

The Democrat and Republican parties are really the same.

Do you still think that there's a difference between the democrat and republican parties? If so, then take our quiz. Here are some common behaviors of our so-called 'leaders'. Tell me, which party is guilty of these acts?... (1) the Democrats, (2) the Republicans or (3) **Both**?

- They spend money we do not have, thereby increasing our debt, to bribe the public, while they point fingers and avoiding responsibility for the current situation in Washington.
- They try to sabotage the policies of the 'other side' at the expense of our children.
- They spend money we do not have, increasing our debt, in order to bribe the public to get your vote.
- They point fingers and avoiding responsibility for the dismal situation in Washington.
- They live in a separate class that's out of touch with the American people.
- They won't support valid ideas from the other party unless it benefits them more.
- They lie outright about events, facts, projections and data.
- They use their position for personal gain and expanding their power and influence.
- They manipulate facts, public opinion, censor stories and lie to gain a political advantage.
- They're afraid to tackle tough issues, so they only address 'distraction issues.'
- They would rather see a program fail than to see their opponents win.
- They see the 'other side' as a competitor but not other nations.
- They are in a perpetual campaign that starts the moment they take office. Even now, Washington is in full-time campaign mode and all meaningful discussions about policy are on hold until after the mid-term elections. Is this the way our government should be run?

### Are these actions best for our nation?

All of these actions come from events that have been in the news. These next actions were added just recently.

- \_\_\_ They use presidential pardons for fundraising and political purposes.
- \_\_\_ They hate when celebrities are vocal about their political views, but they like it when the celebrities are on their side.
- \_\_\_ Their positions on issues are determined by their chances for re-election and not by what's in the best interest of our people.
- \_\_\_ They ignore critical issues because they're not politically correct, like the dreadful rise in depression and suicides, including the well-being of our veterans.
- \_\_\_ They manipulate the legislative process to block or pass unrelated legislation that furthers their self-interest.
- \_\_\_ They switch their positions on issues when the other party is in power or fail to support helpful positions (like treaties, etc.) because they were not supported by the other party or previous administration.
- \_\_\_ They are all re-active. There is no forward thinking or planning ahead on any issue. They ignore all problems until they get so out-of-control they are forced to acknowledge it. But instead of dealing with the issues intelligently, they throw a quick band-aid on it and pray it doesn't hurt their chances of reelection.

### Should I continue or do you get the point?

Both parties know that they can get away with any unlawful activities because their opponent was guilty of the same actions. For example, democrats can't attack Trump on using pardons as a political tool since they all defended Hillary Clinton after she blatantly sold presidential pardons for personal donations.

### We must stop being complicit and accepting this behavior.

Do any of these behaviors have anything to do with the merits of an issue? Is this how we should prioritize policy decisions? These are the people that we reelect and support year after year. It's time for a change my friends.

When you look at this hot mess from a 10,000 foot view, then we're not as polarized as we think. We all want change, and all want this change now.

## PROJECTS

### Be a Patriot in our Nation's 2<sup>nd</sup> Revolution

#### Make a Difference

There's nothing more important in our life than choosing how we wish to be governed. But currently, our political system is controlled by dishonest politicians who belong to two self-serving parties. We can change our political system, but only if everyone understands the truth about our condition. So, please broadcast this message to as many people as you can, including coworkers, schoolmates, church folk, your Shaman, bail bondsmen, and fellow astronauts.

Here are some things that we can all do to make a difference. Please let us know if you'd like to join our team and which projects interest you.

#### We have Programs are ready to Launch

There are a few exciting projects that we'd like to roll-out as fast as possible – and your financial assistance will help us complete these faster. These include, satirical and entertaining videos, social media programs, candidate recruitment and training, the Rapid Response Network, building a volunteer army, helping candidates campaign and fundraise.

#### Please give your Time or Money

To do all this, we need your help. But we are not asking you to contribute more than you already donate. Just take a fraction of what you normally give to the Democrats and Republicans and redirect those funds to help an organization dedicated to solving our root problem... that is, ending our 2-party monopoly.

#### Help Fund these Programs

##### Be a Producer in our upcoming Documentary

What other crimes are out there waiting to be exposed? Help fund a full-length documentary based on the book, Mistaken Beliefs, and on our 2007 short video, Kiss Freedom Goodbye. This internet video exposed some of the ways that the two parties secretly use to rig the system, force out competition and maintain their grip on power. It won the following awards.

- The Telly Award for Best Internet Commercial for Political Issues
- The W3 Award for Best Viral Marketing Video for Activism
- The Marcom Award for Best Political Web Video
- The Ava Award for Best New Media Political Video

We are very confident that we can repeat the success of this video with our new documentary.

##### This Weeks Lies Comedy Program

We have plans to develop a political comedy variety show that pokes fun at the lies and hypocrisy in Washington. It's part game show and news program, and it's called, This Week's Lies. The Comedy Channel and Barely Political produced a number of short pilots based on an earlier version of the show. These videos on the Reset America YouTube page.

#### Help us to Protect your Voting Rights

The 2 parties create steep hurdles that prevent you from voting for candidates outside the 2 parties. Many of these are illegal. So, 3rd Parties are forced to use their limited funds to fight for your right to vote for whom you want. As vice chairman of the Libertarian Party, I experienced first-hand the two areas where 3rd parties are forced to spend all their time and money. They are collecting signatures and suing the government for illegal campaign rules.

- **3<sup>rd</sup> parties are required to collect an absurd number of signatures just to get the names of candidates on ballots.**

Gathering signatures is hard work and the 2 parties know this. This is precisely why they require a near impossible number of signatures just to get a name on a ballot.

And let's face it, who wants to give out their personal information to strangers during a pandemic. What's more, the number of signatures required by 3<sup>rd</sup> parties can be up to 10 times more than those of the Democratic and Republican Parties. Who is this meant to benefit?

- **3<sup>rd</sup> parties are constantly suing states and the federal government to defend against illegal campaign practices that prevent any competition from taking hold.**

Most of these cases are either won or they are thrown out by judges who were appointed by the 2 parties and whose careers are influenced by their decisions. I am unaware of any cases that were lost based on the merits. Over the years, there has been over 100 lawsuits brought by 3<sup>rd</sup> party and other independent groups.

Here's just one example. In the 2008 presidential election, 3<sup>rd</sup> parties gathered enough signatures for their candidates to appear on the ballot in Louisiana. But on the date of the filing deadline, state offices were closed due to Hurricane Gustaf. On the first day that offices were reopened, the 3<sup>rd</sup> parties submitted their signatures, but they were denied because they missed the deadline date.

However, the 2 major parties were allowed to submit their papers late. We sued the Secretary of State's office, but the court upheld the decision that the signatures should not be counted.

As I said before, this is why we never see ads for 3<sup>rd</sup> party candidates. All their money is spent trying to get their names on ballots and defending your right to vote for who you want. There are simply no funds left over for the important activities that 2 major parties take for granted, like fundraising, promoting candidates, outreach and recruitment, candidate development, volunteer networking, media development and so on and so on.

Incumbent politicians have numerous advantages over outsiders in re-election campaigns. Here is a list of these advantages from Mistaken Beliefs.

### Assist in Collecting Signatures

Besides forwarding this message to everyone you know, here are other ways that you can help.

Unequal campaign laws are the biggest obstacle that the 2 parties make for independent candidates. All candidates running for federal office (other than Democrats and Republicans of course) are forced to collect an absurd number of signatures to just get their name on a ballot.

Do you want to hold our "leaders" accountable?... then sign petitions. Even better, volunteer to collect signatures for candidates and various causes. I guarantee that you will have a greater appreciation for what signature gatherers do. Also, don't ignore people who are asking you to sign a petition to support a candidate or ballot measure. Instead, we all should be eager to sign any petition that creates change. It frustrates me when people blow-off signature gatherers. It's a crappy job and it is insulting to me when people ignore folks who spend their free time trying to help you live a better and more empowered life.

### Run for Office Yourself

If you want to make an even bigger difference, then run for office. We plan to provide resources and training to independent and 3<sup>rd</sup> party candidates. For example, in the book Mistaken Beliefs, we include a list of frank questions often asked to 3<sup>rd</sup> party candidates with effective responses. (This information is from Mike Gozian when he was involved with the Libertarian and Green Parties.)

Here are some meaningful benefits to running for office as a 3<sup>rd</sup> party candidate.

- It shows others that there are people in this world who are willing to fight for change despite the ridicule and long odds.
- It also causes (and with any luck, forces) the Democratic and Republican Parties to spend money that they would rather use to attack each other.
- It's great training to improve your public speaking and presentation skills.
- You get to work with and hang out with cool people.
- Even with no campaigning, you will probably get 5-15% of the vote just because so many people hate the Democratic and Republican Parties.

### Stop Supporting the 2 Parties

We can blame the politicians and the 2 parties for driving us off a cliff. That might make us feel better for a moment - but we are allowing the 2-party monopoly to push us closer and closer to 3rd world status and taking our planet with it. Now it is you and I who need to step up to the plate, accept our role in allowing these problems to arise and take action to reverse the course of history.

The most important thing that we must do is stop supporting the Democratic and Republican Parties. This shouldn't be too hard to do since it means requiring you to do literally nothing. Even the laziest of Americans should nail this one. Take all the money that you donate to them and put it back into your wallet. Better yet, give a portion to us and spend the rest on anything that makes you happy and feel better.

Of course, they're going to tell us that there's no one else qualified for the jobs and that voting for a 3rd party is a stupid idea. They're also going to say that they have answers to all our problems. They're going to tell us what we want to hear.

**They're laughing at us right now.** They're reading this message and saying there's no chance that this is going to take hold because the American People are too stupid, too distracted, and too lazy to vote us out. They have no need to worry. Their story that "voting for a 3rd party is a wasted vote" is working brilliantly.

### Support Real Change Instead

There are good candidates running for office that need your support. 3<sup>rd</sup> parties need to raise funds to collect an unreasonable number of signatures in order to get the candidate's names on ballots. They also need funds in order to sue states for election violations.

If you really want to make a difference, then give to Reset America. All change starts with who we elect to office. We need a voter revolution and (at a minimum) add much needed competition to the 2 parties. These are the people who are destroying our nation for their political self-interest. Don't buy their lies anymore.

- Don't let them ignore the real issues (and practical solutions) because they don't help re-elections.
- Don't buy into their lies saying that they care about the future. They caused the situation we're in now.
- Don't let them blame someone or something else for our current situation. After all, they make the laws.
- Don't let them change the facts or manipulate data to make our situation look better than it really is.

Both parties are equally guilty of these actions. And the bar is set so low that a President is considered to be successful if only 50% of voters approve of their performance. If a businessperson conducted themselves this way, then they would be fired at once. Yet, our politicians keep their jobs, their benefits and their severance packages. If you think that this is wrong, then let's stop it now!

### We must Educate the Media

**We must stop talking about WHAT politicians say and start talking about WHY they say what they say.**

It's frustrating to watch the news and see all the attention focused in the wrong direction. We need to stop direction from the media and start taking action for ourselves. Here are some things that we can do right now to engage the media. I'm sure there are more. Please send to us your suggestions. We will be keeping our website, ResetAmerica.com, up to date with this information.

Insist that the media is asking the right questions. We know that the Democrats are criminals and that the Republicans are liars. Reporting every detail of everything they do wrong is a waste of time. They are distractions that do not address the core issue - which is why we chose to accept our fate. There needs to be more news coverage about the issue of change. I know you agree because you're reading this now. The media will cover these issues if we contact them and demand that they focus on the larger issues.

### The Big Picture is Ignored

The media is not asking the right questions. They talk about the symptoms of our problems, but they ignore the big picture. The level of "getting to the root of a problem" is a 3 when it should be a 10.

They don't talk about what's most important like the motivations or intentions behind issues. They only report on trivial topics, like what Trump lied about today. We know he lies. Even his supporters know this. How is this news? Here's another example. Trump just submitted a motion for an appeal. The news is analyzing the merits of the arguments in the motion. But so what? The goal of the motion is not to make a legal point. He just wants to delay the trial, so he needs to invent justifications to support his excuses. It doesn't matter what those arguments are. They are just made-up, but the news and podcasters only focus on the details which are just meaningless.

Here are some of the issues that **should** be addressed. We need to make the media know that these are the issues that we want discussed.

- How is the system rigged and what we can do about it?
- Why are people afraid of change?
- Practical and valid ideas to fix our problems and why these are not even considered.
- How our election process evolved in a way that allowed the 2 parties to nominate the 2 most disliked party nominees in US history in the last two presidential elections.
- What are the unconscious variables that effect our decisions, like confirmation bias and herd mentality?
- How could Donald Trump win the Republican primary with only 8.4% of the vote, and what can we do about this?

**These are the issues that we should be discussing as a nation. Everything else is just noise.**

### We need a 3rd Party Response Network

There's a very easy way to add credibility and promote 3<sup>rd</sup> parties. It also costs nothing to make happen. We must demand that all 3<sup>rd</sup> party candidates appear in all surveys and questionnaires.

This is a simple first step to gain recognition. Each time we see a poll that doesn't include 3<sup>rd</sup> parties or their candidates, then an army of concerned citizens should inform that media outlet to list ALL candidates, not just the top two. To do this, we need a Rapid Response Network to help independent candidates get noticed. This is something that we plan to do as soon as we have the time and resources.

There are countless polls circulated online. Most only mentioned the top 2 parties. The media does not recognize independent candidates because they think that they "don't stand a chance." This ignorance creates a self-fulfilling prophecy. Just by having these alternatives listed makes a big difference in how we are respected by the public. This will make independent and 3rd party candidates more visible and encourage more qualified candidates to run for office.

Two excellent examples of this are Amnesty International and Public Breastfeeding. Whenever a major human rights violation occurs anywhere in the world, or a woman is denied the ability to breastfeed in public, an army of volunteers flood mailboxes, phones and social media of the offending party. All of this kicks in with the push of just one button. It really works.

# 18

But it's not like we need to twist arms. Most people want to do the right thing and they are quick to comply. They're people, just like you and me, who also want change. They just don't know the importance of this oversight, and that this is literally our only hope for any political change to happen. In the meantime, forward this message to all your friends – especially contacts in the media, bloggers, commentators, celebrities, artists, musicians, Youtubers, and anyone else who is willing to endorse this message.

This is a program that we can quickly execute. A small donation of \$5.00 can help make it happen. Please visit our [GoFundMe](#) and [Patron](#).

## Join our Crew

If you agree with this message, then please help. I'd like to work with a group of folks who are hard-working and agree with this message. This includes everything from running our organization to spreading this message. We need social media experts, podcasters, bloggers, YouTubers... folks with experience in fundraising, Patron and kick-starter campaigns. I have no idea how long I have to live. (I'm not being negative, it's just life.) It would be a terrible shame if this message died with me. Plus, It's more fun working with others. In the words of my 17-year-old son, "You need a crew dad."

## Who's really the "Crazy" ones?

The candidates who belong to one of the 2 parties are considered to be "legitimate candidates", yet they are the ones who are for sale. But independent candidates – who are looking out for you – are the "crazy ones."

Back in 2006, I was persuaded by many people to run for President. (Peer pressure got the best of me.) But, as soon as I did, the same people called me "crazy." This is why so many independent candidates enter races and then step out, just to step back in. When you're not running, people encourage you to enter the race, but, as soon as you do, the same people say you're "crazy". This is because when we think for ourselves, we think one way, but when we think on behalf of the herd, we think another way. All of these unconscious influences are covered in the book.

**But who are really the crazy ones? Voters who fight to change the system for the benefit of all Americans... or voters who re-elect the same people over and over and then expect them to suddenly start doing the right thing?**

## Hey Celebrities & Influencers

Help us Educate Others. I'm constantly hearing celebrities, commentators, entertainers, businesspeople and even politicians complaining about our divisive 2-party system. Well, this is your chance to do something about it. I challenge each one of you to prove your commitment and backup what you say by getting involved. Just a few public endorsements would provide the spark we need to put this set this project on fire.

One more thing. Nothing makes me angrier than when people mock or minimize 3rd parties and their candidates. Most anchors, journalists and reporters do this. They criticize literally the only option available to fix this mess, that is adding competition from outside the 2 parties.

Please forward this message to all media outlets as well as bloggers, reporters, celebrities, artists, musicians, Youtubers, TikTokers, and anyone else who demands a fair election process.

## Join me in Defending your Future.

"People who fight the establishment sacrifice both their reputation and livelihood. But I'm just a crazy enough shit to stick to my principles and I'm hoping that you do to." Mike (GoZian) JingoZian

**From business leaders to celebrities to activists practically everyone is calling on us to rise above the partisan bickering for meaningful change to happen.**

## OUR APOLOGIES

We fought a revolution to take control of our government from the British. It's time for us to take back control of our government from the 2 parties.

Our message is not perfect... and will never be.

We needed to get our overall message out now so that we can begin fundraising. We need funds to kick-off this movement including completing our book, producing our documentary and much more. So, we'd like to apologize for a few things upfront.

- Please ignore the little details as this book is being finished.

This material is still in a draft form. Therefore, please ignore details like grammar, capitalization, punctuation, cases (1st person, 2nd person) and so on.

- The data is hard to keep current.

The data and events included in this book will be out of date quickly. But you will see that it doesn't matter which party is in office, what the current urgent issue of the day is, or the latest controversy, our nation will collapse within the next decade unless we do something now.

- Our message might not be worded perfectly.

The book needs one last review. It may not include the best examples to prove a point. But regardless of the details, it does not diminish the importance of this message or the only realistic strategy to change the direction that our country is headed.

- Ignore Duplicate text.

Some of the same information appears in different chapters. Sometimes this is intentional and sometimes it is not. All these issues will be fixed for the final edition.

Sources of the data that we reference.

We reference a lot of data on this website and in our book. The sources of all this data appears at the end of the book. You can access the book and the data here.

Unlike politicians, we are not paid.

We are not paid to spread this message – unlike politicians who collect huge salaries and have unlimited resources. For those who fight for our freedom, the opposite is true. Creating this message and publishing this material takes a lot of time. Building this movement takes time away from generating income for my family. This is one of the many ways that the 2 parties maintain their grip on power.

- We're not paid extremely well by the government to run a perpetual campaign like the politicians
- We don't have huge staffs whose jobs rely on getting politicians reelected.
- We don't have researchers, speech writers, media contacts, resources, money to get this message out.
- We don't get invited to speak at events on a regular basis or get in the news with a single phone call.
- We can't pass laws that only benefit ourselves.
- We can't do this full-time, unlike career politicians whose job it is to win re-election.

There are many more unfair and unethical advantages for incumbent politicians. Read *Mistaken Beliefs* to discover other ways that the establishment stays in power to protect the status quo. How else can they get a 95% re-election rate with a miserable 9% approval rating?

**We don't have all the answers... and never will.**

We don't know everything (I'm sure that's no surprise to anyone who knows me), but somehow, all politicians always do. At least that's what they want us to think. Somehow, they have the perfect solution to every problem, every time. But unlike politicians, we don't have the answer to every problem... but at least we know what questions to ask.

**Please... Bring it on!**

I'm certain that some of my facts are wrong. Am I worried that insiders and critics will use this fact to discredit this book? Not much. Some of the data may be wrong, but it doesn't change the conclusions. Any criticism will just call attention to this message... which is a wonderful thing.

**Let's work together around our common goals and put aside the distraction issues that the 2 parties use to polarize us to maintain their status quo.**

[It's time to make a change. It's time to Reset America.](#)

## LETTER TO CONGRESS

### Attn: Current Democratic and Republican Legislators

If you really care about our great country, then resign from office immediately and endorse the Reset Principles.

It's time for you to put our nation first.

#### Dear Current Members of Congress,

Let's face it. Our system is broken. Furthermore, you know that it is. Our problems are growing in number and their consequences are worsening. The situation is so bad that it can no longer be fixed. We need to start over. If you don't agree, then you are either (1) lying or (2) lack the intelligence to do your job. There is no third possibility.

#### Be a Real "Leader."

You put your hand on the Bible and swore to uphold the Constitution to our once great nation. Then, overtime you forsake that promise for world of bickering, partisanship, and personal gain. Certainly, you may have gone to Washington with the best of intentions, but after being engulfed in this corrupt system, the corruption rubbed off. It became acceptable to lie and cheat because everybody else lies and cheats.

No one expects you to own-up to the fact that your 2-party system is at fault. Very few people have the courage to change a system that propelled them into a powerful and separate class. No, I expect you to fight tooth and nail against a system that supports policies that help people and not the special interests who pay for your campaigns.

#### Your colleagues are jumping ship... why don't you?

A record number of your associates have given up altogether. Justin Amash was one of the first to quit Congress and the Republican Party because of our failed political environment. He said...

"Both parties mislead, misdirect, employ double standards, and lie. When you point this out, each side attacks you for suggesting their team is anything like the other team. Wake up, partisans—you are a mirror image of the other side, just with different biases and blind spots."

Former Presidential Candidate Andrew Yang quit the Democratic Party and plans to create a new party called the Forward Party. Others have announced plans to start 3rd parties, but as soon as they realize the number of unfair advantages created by your 2 parties, they quit.

I wish them well, but no 3rd party stands a chance when the election laws that you created prevent fair competition. You are always talking about how competition always helps companies and people in every industry. Why then do you prevent competition in our political system? Does it have anything to do with the fact that you maintain a 95% re-election rate with a 9% approval rating?

If you really care about our country, then resign immediately.

But there is one way that you can redeem yourself... and possibly keep your job. Pledge your support to these three policy changes - and if your constituents feel that you kept your promise - then might be re-elected.

1. Term Limits to replace career politicians.
2. Ranked Voting to eliminate the spoiler effect.
3. Equal Campaign Laws to give 3rd party candidates an equal chance to be elected and provide much needed competition to the corrupt 2-party system that you supported.

This is a real once-in-a-lifetime opportunity to go down in history alongside our Founding Fathers – and the millions of people who died to give future generations a chance to live a better life. But instead, you bankrupted our nation, restricted our freedoms and built a system where - in the first time of our nation's history - future generations will have lower life expectancies and a lower standard of living. It's time for you to step aside.

Signed,  
The American People

Now, go do the right thing.

PS... If you are a former democrat or republican, and you agree with this message, then please contact us. With your leadership, we can return our national back to a true constitutional republic based on fair and equal democratic elections. That's all any of us want.

[How do you wish to be remembered?](#)

## IT'S THE PERFECT TIME TO START A NEW PARTY

We fought a revolution to take control of our government from the British. It's time we take back control of our government from the 2 parties.

**This is the perfect chance to take back control of our Government.**

Right now, there is a once-in-a-lifetime opportunity for third-party candidates. The Senate is split 50-50 with both parties requiring that their members vote their way. This split presents a unique opportunity for independent candidates. Just one independent senator will have the swing vote in every partisan decision.

Imagine if a true 3rd party candidate was elected to the US Senate. Then, we alone would determine the next Senate Majority Leader, plus committee members, chairmanships and much more. We can use this power to pass our first three goals; Ranked Voting, Term Limits and Equal Campaign Laws.

It is my desire to build a coalition with a small number of intelligent, serious candidates who would like to run for national office under a new party, perhaps the Reset Party. By having the deciding vote on every close bill, we would be able to negotiate extraordinary deals for the residents of their respective states. This is real power that is currently not available to the residents of their states, and is not possible with current Democrat and Republican legislators.

**The high cost to bribe and mislead the public.**

Independent candidates have one more thing going for themselves... we don't need to raise money to mislead and bribe voters. The amount of money that 3rd parties spend per vote is a fraction of what the two major parties spend.

- The average cost per vote for a 3rd party candidate is under \$3.00.
- The average cost per vote for a 2-party candidate is hard to know. The amount of money spent that is reported is about \$20-25 per vote. However, this figure does not include dark money which is now in the billions. The total amount spent is somewhere between \$20 – \$100 per vote.

Apparently, it costs much more when you lie and cheat.

**A small donation goes a long way.**

Just imagine if 3rd parties had just 1% of the money raised by the two major parties. With this amount alone, independent candidates will be able to spread their message to our entire population. This is the greatest threat to the Democrat and Republican Parties and the biggest opportunity for the American People.

**A revolution is coming. The question is will it be a violent one and what will our country look like when the mob takes control?**

**It's time to Reset America.**

## Donate & Volunteer Purchase Mistaken Beliefs

# 24

Please share this message with all people from all backgrounds and ideologies.

Please Contribute	Get Involved
 <p>We have a few important projects that we want to rollout immediately.</p> <ul style="list-style-type: none"><li>▶ You can make a one-time contribution using <a href="#">GoFundMe</a>.</li><li>▶ You can make a monthly pledge using <a href="#">Patreon</a>. Most of these require little effort and little money.</p> <ul style="list-style-type: none"><li>▶ Help us create a <a href="#">Media Response Network</a> to get listed in all surveys &amp; polls.</li><li>▶ Help us start a <a href="#">New 3rd Party</a>.</li><li>▶ <a href="#">Become a Producer</a> for our documentary based on our award-winning short political video from 2007.</li></ul>

### Order Details

**Here are some details regarding your order.**  
Please contact us with questions.

- ▶ To get a free copy of the first 57 chapters that are published, send us your contact details below. Don't worry, we're not going to bombard you with lots of spam.
- ▶ Your \$20 purchase includes the most current version of the book, plus all updates as the final chapters are being completed.
- ▶ This includes the book in PDF format, as well as e-book and Kindle versions when the final edition is published (if they are produced.)
- ▶ It also includes the audio version narrated by the author (if one is produced).
- ▶ It does not include a hard copy version. (There will be a nominal charge for people who purchased this PDF version. Although one may not be produced since the facts and data change so quickly.)

### Why you Must get Involved

**In order to achieve our goals, we must break the status quo.**

It goes without saying that no one in the current establishment would like this to happen, so support for this movement must come from you. Please help us by donating funds, or volunteering your time by blogging, posting videos or helping us produce our podcast, documentary and Media Response Network, (see page \_\_\_\_.)

We need to tell the American People the truth about (1) what's really going on in Washington and (2) the motivations behind the decisions made by our "leaders." For example...

- ▶ How and why the people who are supposed to represent us are really representing their own interests.
- ▶ Why every law passed by Congress is aimed at maximizing donations (i.e., bribes) and boosting their chances for re-election.
- ▶ The problems with Congress being able to pass their own laws, especially in regards to preventing competition.
- ▶ There are realistic strategies to deal with our worst problems, but these practical solutions are ignored because they don't benefit the career politicians who make our laws.
- ▶ Most importantly, you'll be helping us execute our plan to convince all Americans to only vote for candidates who support Term Limits, Rank Voting, Equal Rules and Laws for 3rd parties.

In the process, you will be building a community of independent thinkers... people who want to do what's best for us and not simply obeying our current "leaders" who are only representing the interests of their benefactors.

## Details about your Purchase

Here are some details regarding your order. Please contact us with questions.

- To get a free copy of the first 57 chapters that are published, send us your contact details below. Don't worry, we're not going to bombard you with lots of spam.
- Your \$20 purchase includes the most current version of the book, plus all updates as the final chapters are being completed.
- This includes the book in PDF format, as well as e-book and Kindle versions when the final edition is published (if they are produced.)
- It also includes the audio version narrated by the author (if one is produced).
- It does not include a hard copy version. (There will be a nominal charge for people who purchased this PDF version. Although one may not be produced since the facts and data change so quickly.)

## Critiquing the Book

Please let us know if you are interested in critiquing the book. We have a sheet that lists the issues that we would like to hear your opinions about.
